# Advanced Computer Networks
# Course Objectives

- To uncover and understand the *current directions* of computer networks from literature readings.

- To expose students to the "full span" of the computer network's frontier {a breath goal}.

- To encourage a performance perspective towards analysis of computer and communications networks.

- To "fill-in" gaps in students' networking knowledge.

# Advanced Computer Networks
# Course Objectives

- To refine research skills
  - to advance skills of literature searching and literature review.
  - to learn to analyze and evaluate published results.
  - to improve communications skills
  - to include information available through the Web
